SUITS, OVERCOATS

For men that positively beyond the peradventure of a doubt, are Superior in every point that goes to make a garment of value to the purchaser, to every garment shown in Lancaster at the same price. A bold statement, if you will, but one which we will stand back of. It is our resolve to give the people of Lancaster one house which lives up to its promise of giving more for the money than any house does. We do not rant, or rave, but make you a perfectly square business proposition.

Come and Look

at our Suits and Overcoats. If they do not come up to our description don't buy. If they do, give us your trade, always with the understanding that you can have your money back cheerfully, for any goods not satisfactory.

Men's Suits at \$7.50

That are strictly all wool made of the very best fabrics thoroughly tested. They will wear as near like iron as any cloth can. They are made with a wide facing extending to the arm holes, every seam is sewed with linen thread.

Men's Suits at \$10

They are the best for the money ever offered. Briefly they are made of fine, selected, long wool. The tailoring is done by the most experienced workmen, the insides of the garments which you can not see are faithfully made. You can have choice of about 25 neat styles embracing all kinds of fancy patterns and mixtures, also plain colors. We will admit in selecting these suits our endeavor was to beat in value any suit ever offered in this city for the same money, and we know we have done it.

See our Line of Novelties

in Suits at \$12.00, 15.00 and 16.50. No Tailor in the country can get up any better.

Badly Needed.

Hustle up the lights on Depot street, Messrs. Councilmen. People who grope their way through the mudholes at night do not use Sunday school language in regard to the miserable streets.

Austin.

Mrs. James Austin died at her home, in Upper Garfield, Thursday night. She had suffered some time from cancer. She was a Christian lady and beloved by all who knew her. The remains were interred in the Lancaster Cemetery.

The Richmond players failed to show up and the game announced for last week was postponed until tomorrow, Saturday, afternoon. The teams will tussle and pull wool in Dr. Herring's field at 2 o'clock.

To Satisfy a Few.

Lancaster is the only town on the map where Sunday mail is left unopened until Monday. Shall the will of the majority be respected or shall one or two would-be high muck-a-mucks continue to rule the roost?

Mr. Clayborn Lear Ill.

THE RECORD regrets to note the illness of Mr. Clayborn Lear, the venerable father of Mr. John F. Lear. While confined to his bed, we are glad to say he is not considered dangerously ill and will soon be able to go about.

Farm Sold.

Col. L. F. Hubble, Lancaster's Real Estate Agent, sold this week to Mr. J. R. Hargett, of Jessamine county, the farm of J. I. Hamilton, on the new Danville pike, known as the Burdett Ball farm, for \$25 per acre. Possession given Jan. 1st, 1894.

Small Wreck.

The afternoon mixed train jumped the track at Silver Creek Monday afternoon. No one was hurt but it required several hours to clear the wreck. The night train from Cincinnati came around via. Livingston. This is the first wreck on the Richmond branch in a year or better.

Fine Farm Sold.

Mr. Thos. E. Adams sold his excellent farm last week to Dr. Wyatt Lecher. The land lies at Camp Dick Robinson and is one of the most productive in Garrard county. It contained 216 acres and Dr. Lecher gave \$54.75 per acre, equivalent to cash. Possession is to be given not later than January 1, next.

Approaching Nuptials.

The coming marriage of Jesse W. Sweeney and Miss Lula Bitson was announced by E. D. Gowen Sandby, to take place in the Christian church, Wednesday morning, October 19, at ten o'clock. All relatives and friends of the contracting parties are cordially invited to attend, no special invitations being issued.

At Work in Hospital.

Dr. Wesley, who has been at work in the hospital in Stanford for a month or more, returned to Lancaster Friday. A report got out to the effect that he would not be back here, but this is without foundation. Dr. Wesley is here now to stay and will continue to have his office at Dr. O'Neal's former office on Lexington street.

Nurses Scarce.

Some difficulty was experienced in finding a trained nurse for Lt. Wherritt last week. There has been so much sickness among the soldiers that nearly all the nurses have been engaged in the hospitals. It looks like more women ought to take up this profession. The pay is good and there is always a demand for first-class nurses.

Rev. Campbell Resigns.

Rev. T. H. Campbell tendered his resignation as pastor of the local Baptist church Thursday night, the same to take effect last of this month. It is to be regretted that Rev. Campbell will not remain here. We have frequently referred to him as a man who "practiced what he preached." His influence had a splendid effect.

Lieut. Wherritt Improving.

A trained nurse, from Louisville, has been secured to wait on Lt. Wherritt. He has improved very much during the last week and is now considered out of danger. Of course he will need careful watching and attention from now on, but this being at hand, his legion of friends are greatly encouraged as to his condition.

Good Show in Reach.

Fields & Hansons minstrels will play in Walton's Opera House, Stanford tomorrow (Saturday) night. This company consists of 38 hot members and the show promises to be first-class. Here's a good opportunity for our folks to see a show, as the drive is pleasant and you can get back soon. Write Mr. Walton and he will save seats.

Nice Dance.

A very swell hop was given at Masonic Hall Tuesday evening by the young gentlemen in honor of visiting ladies. Those present were Misses Pearl Burnside and Wood, of Stanford, Christine Bradley Frankfort, Mary Miller, Neil Marrs, Altie Marksberry, Allie Anderson, Carrie Curry, Jennie and Bessie Burnside, Julia May Gaines. Among the visiting boys were Lieut. Rowan Sandley and Gen. Jack Rout, Stanford, Lieut. Kennedy, Lexington and others.

Dr. McKee.

Dr. Lapsley McKee preached in the Presbyterian church Sunday morning and also Monday night. There is a strong probability that his services will be engaged by the local church for at least two-thirds of the time. All denominations are fond of Dr. McKee, and the people are always glad when he comes here. Religious matters in Lancaster are not overly serene just now, and good, old-fashioned, sledgehammer preaching is badly needed.

Joseph's cloaks are beauties.

Wanted, veal calves, H. B. Northcott. Fresh barrel sorghum at G. S. Gaines. The chain gang is doing good work about town.

To the Grand Lodge.

Either Jacob Joseph or W. B. Mason will represent the local Masonic lodge at the Grand Lodge in Louisville next week.

Removal.

Dr. Hugh M. Grant has taken rooms at Mr. W. G. Anderson's on Danville street. The handsome property of Mrs. Fisher, formerly occupied by Dr. Grant, is advertised for rent elsewhere in THE RECORD.

No Preaching Sunday.

Elder Gowen requests THE RECORD to announce that he has gone to Chattanooga to attend the Annual Convention of the Christian church and will not be here to fill his appointment Sunday.

Back to Work.

John Duncan, who has been confined to his bed for several months, is able to resume work in his barber shop over Bunge's stable. He will be glad to see his old friends and will appreciate a share of the public's patronage.

Back to His Regiment.

Will Dunlap, who has been here on a furlough for some weeks, returned to his regiment, the 6th cavalry, Monday. The regiment is still at Montauk. Will is trying to get an honorable discharge, but there are so many similar applications now on file that his papers have not been reached.

Bell-Batterton.

Miss Martha Batterton, daughter of Mr. and Mrs. George D. Batterton, of Danville, was married in that city, Wednesday, to Dr. Clarence L. Bell, of Hartford City, Ind. The bride has many acquaintances in Lancaster who extend congratulations. The groom is a brother of Jack Bell, who has visited in Lancaster and Crab Orchard Springs.

Oyster Supper.

The ladies of the Methodist church will give an oyster supper at the Lancaster Hotel, next Tuesday night, Oct. 18th. Supper will begin at 5 p. m. and will consist of oysters, coffee, pickles, breads, and salads. Price of supper 25 cents. The public in general is cordially invited to attend, enjoy an excellent supper and aid a good cause.

Millinery Openings.

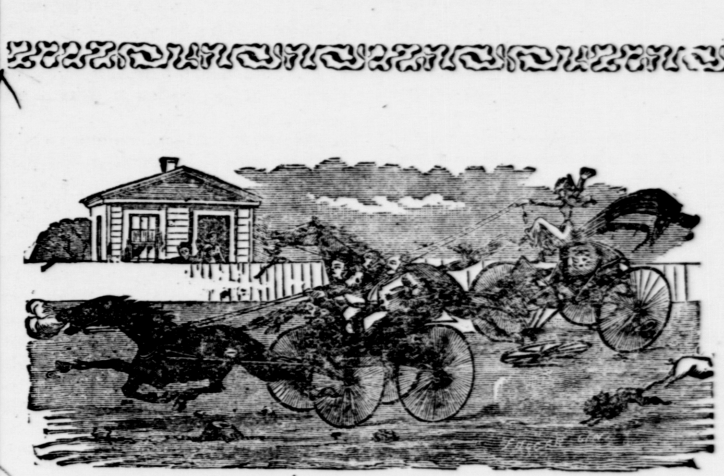

The ladies were out en masse Saturday to see the pretty hats and other millinery on display at Noel Sisters' and Miss Sallie Tillet's. The stores were tastefully decorated and everything presented a lovely appearance. Many handsome hats were sold while as many more were ordered laid aside. The ladies of Lancaster and Garrard county do not have to go away from home to get what they want, as the local dealers have everything to be found outside the big cities.

Pikes in Town.

The town and county officials are at loggerheads, as to which shall keep up that part of the pike terminating in town. A similar case has been decided by Judge "Satler," at Danville, that the town had this to do, but the council of Danville will take the case to a higher court. In the meantime the streets in Lancaster will continue to resemble country creek roads and the public made to swear and stand it. The officials should come to some agreement and have the much needed repairs made, then settle the difference after the court has made final decision.

Pretty Drug Store.

Messrs. Lillard & Stout, the bustling Danville druggists, have had their store room converted into one of modern convenience and beauty. A steel ceiling has been put on, a new front made and the old shelving replaced by beautiful, modern cases. The store is now one of the prettiest in the state. Messrs. Lillard & Stout keep in stock everything to be found in a first-class drug store. Their line of books is superb and we doubt if any store outside the cities carries so large a stock to select from. When in Danville call and see them. They will treat you right and appreciate your trade.

The Dudderar Mill.

I have rented the famous Dudderar Mill, near Gilberts Creek, and am prepared to furnish the very best flour. Will make a specialty of custom grinding. Farmers, bring along your wheat and corn. Satisfaction guaranteed. 10-7

JOHN C. POTTS.

Happy Jack Back.

J. H. Miller, better known as "Happy Jack," got back to Stanford last week after several years' sojourn to the Falkland Islands. Many Garrard county friends are glad "Happy Jack" is again on Kentucky soil and hope he will come over and let them get one more look at him.

Foot Amputated.

Show Anderson, a well thought of colored man, has been suffering for some time with his leg. Drs. Wesley, Acton and Bush made an examination Monday and found amputation necessary. The operation was successfully performed and Show is improving rapidly.

He Will Keep on Calling.

Randolph Harris has been employed to collect for THE RECORD. As it costs about half the amount of the subscription to have it collected we hope those in arrears will settle with Mr. Harris promptly. He has been instructed to "keep calling" until you pay him. The usual cut-and-dried excuses will not baffle him in the least.

The Havana Limited.

The first American railway to announce train service for the special benefit of travel to the West Indies has been heard from. The Queen & Crescent Route are announcing a fast train known as the "FLORIDA & HAVANA LIMITED." It will go into service from Cincinnati to Tampa, Jacksonville, Miami, Mobile and New Orleans. This exponent of the genuine American idea of getting into the field early will be a complete vestibuled service, with diners, observation cars, wide vestibules, electric headlights, and all the paraphernalia of the modern railroad train. It is chiefly to be marked as being first in the field for the new ter-

ritory which is just coming under the protection the greatest flag on earth. Train will make fast time to Ports named and will connect with fine steamer service to various Ports in Cuba, Porto Rico and Famaica. It marks a new era in railroading in this country.

To Master Out.

We hear it pretty straight that the Second Regiment will be mustered out when it assembles at Lexington on the 18th. The officers held a meeting there last week and decided to take a vote of the men as to whether or not an effort would be made to stay in. We understand the taking of the vote had been commenced when notice was received from what is considered "straight authority" to proceed no further, as the War Department had sealed the fate of the gallant Second. It is a great pity this regiment met with such bad luck, as it was by far the best in the state, but a hoodoo was in its path from start to finish.

Service of the Kentucky.

The people seem to be a little slow in making contributions toward buying a silver service for the battleship Kentucky. They should pause and think how other states have done the proper thing for ships named for them and fork out sufficient cash to give the Kentucky just a little nicer set than any other ship has. "Squire Kinnaird, of this city, is on the committee and any funds left with him will be placed in the proper hands. THE RECORD would suggest that an entertainment of some kind be gotten up to raise a contribution from Garrard. Now is a good chance for the girls and boys who have been wearing flags, brass buttons, etc., to display their patriotism.

There was a young girl of Detroit. Who hunted a mouse for to draw it. But she never could tell What it looked like, for—well, She fainted as soon as she saw it.

FRIDAY, October, 14 1898.

The soldiers at Lexington are getting to be more of a nuisance than a benefit. When the volunteers were first organized each man had more or less money which he took to camp. This, together with his first pay, went for clothing, food and other necessities. After about the first two months the Government succeeded in getting abundant supplies of food and clothing, and, in the meantime, the novelty of soldiering wore off and Mr. Volunteer concluded he had best save his little wad. Now the only ones who spend their money are the harem-sept fellows and their dollars are deposited, not with the merchants, but with bar rooms and disorderly houses. At Lexington, Saturday, it was perfectly clear that only the tougher element was on the street, and a hard one indeed, it was. The better class of Lexington people will be glad to say adieu to Uncle Sam's boys, and we see wherein they should rejoice.

A MEMBER of the Second Kentucky tells us that when the regiment was in camp at Chickamauga Col. W. C. P. Breckinridge made them a call one day. The boys, on seeing the silver-tongued orator, immediately set about to get a speech. They got together and sent for the regimental band. The leader of the band did not know Breckinridge from Adam's off ox, and had never heard of his Pollard scrape. Everything was gotten in readiness and the crowd gathered about headquarters when the dunce of a band leader struck up "The Girl I Left Behind Me." They played and yelled for some time but Billy was not forthcoming, and our informant says he was soon seen making tall tracks for the railroad station.

SAMPSON is still trying to wrest from Schley the glory of destroying Cervera's fleet. The Navy Department has finally taken official cognizance of the quarrel between the two men and has directed a board to assemble and decide the question officially. Everybody knows Schley did the work and he should train his guns on the board and see that his great victory is not allowed to be shifted to Sampson simply because the administration is on the latter's side.

WOOD G. DUNLAP, in withdrawing from the race for the republican nomination for congress in the Seventh district, says among other things equally as straight from the shoulder: "My name will not be presented at the Frankfort convention. I know that I can get quite a complimentary vote, but I do not desire to detract one iota from the magnificent victory of my truceless and valiant men, who did not dare to make their slender charges in person, nor make them worthy of notice by their signatures in the newspapers."

The chaplain on the battleship Oregon was tried for criticizing an officer and wigged out by saying he was full of brandy and didn't know what he was saying. This chap is about of the same calibre as most "ministers" in Uncle Sam's service and is preaching for what cold cash there is in the job. Saint Peter will not wear out the hinges of his pearly gate letting in souls converted by the preaching of army and navy "ministers."

The Peace Commissioners continue to squabble with the representatives from Spain. The commissioners are said, at Washington, to have decided to let questions concerning the Philippines rest until other matters have been disposed of. "Both sides are demanding everything," said a Washington official in summarizing the work of the commissioners up to the present moment.

A FRENCH doctor is now asserting that a person who is so unfortunate as to have his head removed by the guillotine retains the senses of sight, smell and hearing for three hours after the supposed execution, and that death by such a method is one of the most prolonged forms of capital punishment. A public test might be well made, using the aforesaid saw-bones as the subject.

The Court of Appeals, in an opinion by Judge Guffy, Republican, unanimously upholds the Separate Coach law and says the State had the right to pass such a law and that it is the right and duty of the railroads to enforce it. If the colored people are given as good coaches as the white folks ride in, it is hard to see why they should raise a kick against this law.

The Pillager Indians went on the war path in Minnesota and several soldiers have been killed. It would be a good idea to take the soldiers now lounging about camps and let them practice killing these red devils. The sooner the Indian is exterminated the better it will be for the country.

SECRETARY ALGER tries to squirm out of answering a number of questions propounded by the investigating committee. The latter are preparing to take another fire at the secretary and it is hoped they will tighten the screws 'til the old guy tells all he knows.

In response to appeals from the South, the Administration has decided to at once send relief to the fever stricken sections. It will be distributed through the Marine Hospital corps.

STATE ODDS AND ENDS.

TERRIBLY MUTILATED.

An Explosion of a Tank of Acetylene Gas in the Residence of Ernest Tyler, Near Shelbyville.

SHELBYVILLE, Ky., Oct. 12.—Ernest Tyler, one of the wealthiest and most prominent citizens of Shelby county, was terribly injured at noon Tuesday at his residence, six miles west of this place, by the explosion of a tank containing acetylene gas. He had just completed a modern residence and installed an acetylene gas plant for illuminating it. While examining the apparatus it suddenly exploded with a loud report. Mr. Tyler's face was horribly mutilated, his jawbone being fractured in three places. All his teeth were knocked out and one eye was badly lacerated. Portwood's appeal was argued before the court about ten days ago by Judge George Denny, jr., an insanity plea being his main defense.

Gov. Bradley Fills a Vacancy.

FRANKFORT, Ky., Oct. 12.—The resignation of J. Buford Hendrick, of this city, as a member of the board of commissioners of the state feeble-minded institution was accepted by Gov. Bradley and John H. Stuart, the well known newspaper man, selected to fill the vacancy. Mr. Hendrick's inability, on account of his private business affairs, to attend to the duties required of him as commissioner, caused his resignation.

Heavy Fine Remitted.

FRANKFORT, Ky., Oct. 12.—Executive clemency was extended in the case of Charles Shepherd, of Glasgow, convicted in the Barren circuit court of operating a gambling contrivance and given a fine of \$500 and two years' imprisonment. Do Not Be Imposed On.

Always insist on getting Foley's Honey and Tar, as it is positively, and solely and unqualifiedly the best cough medicine. Accept no substitute.

UNUSUAL CASE.

John Gray and Katie Larcer Married on a License Which Had Been Issued to Them Eight Years Ago.

FRANKFORT, Ky., Oct. 7.—County Attorney Polsgrove, of this county, was called on Thursday for an opinion in a rather unusual case involving the happiness of a couple from the country, who were anxious to get married quickly, the groom especially so, as he feared that the prospective bride might change her mind. The parties to the wedding, which occurred shortly after the rendition of the opinion, were John Gray and Katie Larcer. They had been sweethearts since 1890, and the trouble arose over the attempt to get married on a license secured by Gray in that year, but never used. The minister wouldn't perform the ceremony, and Gray appealed to the county attorney. He said that he had purchased the license in the spring of 1890 on the promise of Miss Larcer to marry him, but that she changed her mind before the ceremony was performed. He returned the license to the county clerk but did not give up hope of finally having an opportunity to use it. He continued to display his affection for the woman in question until she finally agreed to marry him. County Attorney Polsgrove decided that the license was still good, and the couple were married immediately.

A Romance of the War.

LOUISVILLE, Ky., Oct. 7.—Lieut. Luke Terrell, of Company E, Louisville legion, who is home on a sick furlough, has announced that he is engaged to a Spanish girl, Maria Antonia, of Ponce, whom he will marry on November 15, after rejoining his regiment. They fell in love when the American soldier tended the girl's father, a Spanish officer, while he was dying.

Effort to Stop Gambling.

LOUISVILLE, Ky., Oct. 11.—All the police of Louisville gave new bonds Monday and took the oath anew. In order that the coppers may be sure hereafter that they are pledged to break up gambling each oath was concluded as follows: "And I further swear that I will endeavor to the best of my ability to detect and prosecute all gamblers and others violating the laws against gambling. So help me God."

Owensboro Fair Proceeds.

OWENSBORO, Ky., Oct. 11.—The gate receipts of the meeting of the Owensboro fair, just closed, amounted to \$5,817.40, having been exceeded by the receipts of but one previous meeting. The attendance on Saturday, the last day, was 10,000. The company also derived \$1,450 from the sale of special privileges on the grounds. The company will probably declare the usual dividend.

The Futurity Race.

LEXINGTON, Ky., Oct. 7.—Notwithstanding the heavy track this year's Futurity was the fastest ever trotted, won by Peter the Great, owned by Peter V. Johnson, Kalamazoo, Michigan. Sired by Pilot Medium. Charley Herr, Limerick and Seraphina, divided second, third and fourth money. Best time 2:12 3/4 in third heat.

Clay bought for Dora before he divorced her.

How to Prevent Croup.

We have two children who are subject to attacks of croup. Whenever an attack is coming on my wife gives them Chamberlain's Cough Remedy and it always prevents the attack. Important Decision.

Judge William Carroll, of the Henry county circuit court, rendered a decision in the case of the Eminence Building and Loan Association that many members of the bar think will be an innovation, and will revolutionize the affairs of Building and Loan Associations in Kentucky in the future. Last February the Association in question made an assignment to W. E. Clubb and W. L. Hudson and suit was brought through attorneys W. P. Thorne, D. A. Sachs and G. A. Holland for removal of the assignees and to set aside the assignment. The court held that no Building and Loan Association had power to make an assignment; that the law does provide for such proceedings, that the proper way for such an association to wind up its affairs was laid down in the statutes and that an association properly managed could not be insolvent. The court held that the directors of the association by making an assignment have abdicated their office, and the case was referred to the receiver of the court. Such course will permit the stock holders to elect new officers under the direction of the court. This case has attracted more attention than any tried in this court for many years, there being hundreds of people on the point of losing their homes under the manner of proceedings established by the assignees to wind up the affairs of associations.

Our little boy was afflicted with rheumatism in his knee; and at times unable to put his foot to the floor. We tried in vain, everything we could hear of that we thought would help him.

We almost gave up in despair, when some one advised us to try Chamberlain's Pain Balm. We did so, and the first bottle gave so much relief that we got a second one, and, to our surprise, it cured him sound and well.

KENTUCKY CROP REPORT.

Condition of Crops and Live Stock October 1st, 1898.

For the October report replies were received from 147 correspondents, representing 103 counties.

CORN.

The corn crop has been further benefited during September. Late corn, which is usually cut off by the closing of the season, is, this year, as well matured as early corn. The warm rains have, however, kept corn in a sappy condition and a number of complaints have been received of damage in shocks, caused by heaving. Grasshoppers, in the western section particularly, have stripped the stalks of their blades, and in some instances this has occurred early enough to cause damage to the grain. Local wind storms have blown the corn down badly in the western and southeastern sections and the hot weather and rains have caused all sorts of trouble to the crop.

The estimate of the yield is 32 1/2 bushels per acre for the State. The average yield for 1897 was estimated at 23 bushels per acre. By sections the yield averages 31 bushels for the western, 35 for the north central and 27 bushels for the southeastern section. Very few counties report the crop not as good as anticipated earlier.

Tobacco.

The great improvement in the tobacco crop noted in the report of September, and the crop is reported mainly housed in good condition. A very small per cent. remains uncured, and with favorable weather in the next few days this will be well. Widely varying views are expressed regarding the acreage housed this year, but the opinion is general that where the stand is an average one the yield per acre is one of the heaviest produced. The estimated average yield per acre is 740 pounds for the Barley district and 850 pounds for the Dark tobacco district. The weather during the month has not been favorable for proper curing and a great number of reports of "house-burning" are received. Some of the finest crops in Woodford county are said to be ruined by rust.

LIVE STOCK.

The condition of live stock, with the exception of some disease in localities, is in keeping with the excellent condition of pasturage. Cattle and horses are in fine flesh. The abundant grazing and fine corn crop has increased the demand for cattle to such an extent that correspondents report the younger classes of this stock are not to be had at any price. An epidemic of "Bloody Murrain" is reported in Estill county, confined to "yearlings" and calves, and from which many of these have died. No losses had occurred during the past few weeks, the disease was apparently checked. Pink eye is reported in the counties of Henderson and Jessamine, and distemper is prevalent among horses and mules in F. Paul county. Such prevails to some extent among sheep in Kenton county, and in Madison county numbers of sheep have died from the effects of a grub produced by the egg of a certain fly deposited in the nostril of the animal.

There appears to be no abatement in the numbers of grasshoppers which have infested the State during the late summer and fall. These insects have destroyed much young clover as well as early sown rye, and it is feared they will injure the early sown wheat which is beginning to come up. Farmers are holding off sowing wheat at in many counties waiting for their disappearance. Crops are now out of danger and a frost would be welcomed as a means of getting rid of the pests.

Indications in a number of counties point to an increased acreage of wheat. The soil has been prepared under the most favorable conditions and the crop will have all the advantages to be derived from this source.

ELECTROPOISE

The trouble with most sick people is that in their anxiety to get well they try first this nostrum, then that, until the poor stomach rebels and calls a halt. There's a better way. What the body needs is oxygen—more oxygen. The Electropoise is simply an instrument which, when applied to the ankle or wrist for a short period each day, polarizes the body and enables it to take on oxygen more freely. The Electropoise cures without medicine. One instrument lasts a lifetime. Send for descriptive book and read what noted people say about the Electropoise.

Scrofula to Consumption.

Any one predisposed to Scrofula can never be healthy and vigorous. This taint in the blood naturally drifts into Consumption. Being such a deep-seated blood disease, Swift's Specific is the only known cure for Scrofula, because it is the only remedy which can reach the disease.

Scrofula appeared on the head of my little grandchild when only 18 months old. Shortly after breaking out it spread rapidly all over her body. The scales on the soles would peel off on the slightest touch, and the odor that would arise made the atmosphere of the room sickening and unbearable. The disease next attacked the eyes, and we feared she would lose her sight. Eminent physicians from the surrounding country were consulted, but could do nothing to relieve the little innocent, and gave it as their opinion that the case was hopeless and impossible to save the child's eyesight. It was then that we decided to try Swift's Specific. That medicine at once made a speedily and complete cure. She is now a young lady, and has never had a sign of the disease to return.

Mrs. RUTH BERRY, Salem, Kan.

Scrofula is an obstinate blood disease, and is beyond the reach of the average blood medicine. Swift's Specific

S.S.S. For the Blood

is the only remedy equal to such deep-seated diseases; it goes down to the very foundation and forces out every taint. It is purely vegetable, and is the only blood remedy guaranteed to contain no mercury, potash or other mineral substance whatever.

More than 500,000 sewing-machines are made in this country annually, which is 90 per cent. of the production of the world.

A French scientist says a caterpillar can not see more than two-thirds of an inch ahead. The hairs on the body are said to be of as much use as its eyes in letting it know what is going on around it.

Because hogs will eat almost anything is no reason for giving them almost anything to eat. The proper feeding of a wholesome and well-balanced ration is as important as with any other stock.

A flock of sheep wintered on straw will show a pretty poor fleece. Feeding may afterward bring up the flesh, but it will have but little effect on the wool. It is possible to keep sheep through the winter very cheaply, but it is not policy to do so.

An Ohio farmer, who has grown alfalfa for eight years, says that it makes more good feed for his stock than corn or any other crop he can grow. He cuts from three to four crops off each year and all kinds of stock eat and thrive upon it.

The lamb trade has developed wonderfully, and breeders have been getting about as much for lambs as for sheep a year older. At least a quicker return is obtained on the money invested. A revolution on this basis seems to be surely working its way throughout the stock trade.

DeWitt's Witch Hazel Salve has the largest sale of any Salve in the world. This fact and its merit has led dishonest people to attempt to counterfeit it. Look out for the man who attempts to deceive you when you call for DeWitt's Witch Hazel Salve the great pile cure. Storms Drug Store. 1m

W. D. Matherley, of Mercer, upon being questioned as to the farming outlook in his section said to the Harrodsburg Democrat: "There will be a great deal more wheat sowed in my locality this year than there has been year. Corn is heavy and is turning out well. All the cattle, owing to the fancy prices at which they are selling, have been sold, with the exception of a few which will be wintered and put on the market next fall. It seems that everybody is going crazy about raising sheep. There are a good many hogs down my way, but most of them are being fattened and will soon be sold."

Cattle breeders are now having their long-deferred "finning." Feeders are in despair as to supplies. The market for strictly prime fat steers is now well up to the \$6 notch, but well-bred young cattle are so scarce that buyers cannot acquire a sufficiency of them at any reasonable figure. The feeder is not to be envied just now. Farmers who have maintained good bulls or the best types in service are the masters of the situation. Their wares are wanted. It is estimated that there are now fewer cattle in proportion to the total population in the United States than at any other period during the past twenty-five years.—Breeder's Gazette.

Capt. Boone married Mrs. Adams. Capt. Sam Boone was married Wednesday at Fort Worth, Texas, to Mrs. Lizzie Adams, widow of Capt. Jack Adams, formerly of this county. The editor of this paper is a warm admirer of Capt. Boone and no one wishes the gallant old warrior more happiness than do we.

Letter From Tink.

THE RECORD has received an interesting letter from Tink (alias "Thunder") Anderson. Tink is stationed at Anniston, Ala., and is a brigade wagon master. Tink says "I am at Gen'l Compton's headquarters, have a splendid position with little to do, and plenty to eat, and a nigger to saddle my mule. Am quite well, though a good swig at lyro's best would make me much better. Colson's regiment of mountaineers know how to make moonshine, but they are all scared now. Our brigade is 4th Ky., 4th Wis., 3rd Tenn., 3rd Ala., and a nigger regiment, so I will close and take a whiff out of my old cob pipe."

Here is one of those who are either so prejudiced against all advertised remedies, or have become discouraged at the failure of other medicines to help them, and who will succumb to the grim destroyer without knowing of the wonderful value of Foley's Honey and Tar for all Throat and Lung troubles.

SERGEANT SHOT DEAD.

Corporal Edwards kills Sergt. Green and fatally wounds Another Negro—all of the seventh Immune Regiment.

LEXINGTON, Ky., Oct. 10.—A fierce fight took place in the camp of the 7th Immune Sunday morning, as the result of which one Negro is dead and another mortally wounded. It seems that Corporal Edwards became enraged at some trivial matter, and drawing from his pocket a 48 caliber army pistol, began firing at Color Sergeant Green. The first shot struck Green in the breast and killed him instantly. Another bullet struck one of the other soldiers engaged in the quarrel in the abdomen, inflicting a wound almost necessarily fatal. Col. Goodwin sent a messenger to the city to secure handcuffs for the prisoner and to notify Coroner Molloy, who Sunday afternoon held an inquest over the dead Negro. This is the first killing of the kind among the volunteers.

IMPORTANT DECISION.

The Court of Appeals Decides the Statute Requiring Railroads to Provide Separate Coaches Constitutional.

FRANKFORT, Ky., Oct. 8.—The Kentucky court of appeals has rendered a decision holding constitutional the Kentucky statute requiring railroads to provide separate coaches for Negroes. The law was passed in 1892, and the decision Friday is an agreed case testing its validity. The court holds that the law applies to interstate passengers as long as they are in the jurisdiction of the state, taking issue on this point with Federal Judge Barr, who, two years ago, declared the law invalid. The case decided Friday is likely to be appealed to the supreme court of the United States.

He is universally liked by all political parties and everybody is glad to see him landed in a good place. He is 50 years old and has held one office or another for 30 years.

Pleaded His Own Case.

OWINGSVILLE, Ky., Oct. 10.—John Booth, charged with horse stealing, who insisted on pleading his own case, was convicted and received a sentence of 12 years in the state prison. The case against John D. Young, Jr., charged with killing Phiney Fasset, July 6, 1895, was begun. Young was convicted and sentenced to the state prison for 18 years two years ago, and was granted a rehearing by the court of appeals.

Shot His Sweetheart.

MONTICELLO, Ky., Oct. 11.—Sunday night Alex Keith, a young farmer, called on his sweetheart, Miss Lou Dick, and found a rival talking to her. Angry words passed and Keith attempted to shoot the other man. Miss Dick interfered, when Keith turned his revolver on her and shot her through the right breast, inflicting a mortal wound. He then fled. Officers are in pursuit.

KIMBERLY, Ky., Oct. 8.—Joe Brockman, a sawyer at Grider & Winfrey's mill, near here, was killed by being caught in the machinery, being mangled in a frightful manner. He leaves a wife and three children.
